- Ranger Stickles Glitter Glue – Silver
- Ribbon
- Silver Cord
- Crop-A-Dile
- Adhesive
- Thin Black Pen
- Pop Dots
- Valentine M&M candies

February PROJECT OF THE MONTH

- 1** On a scrap of Contact Paper, stamp Angel Yappy using Black Stazon ink. Cut out.
- 2** Using various sizes of heart dies, cut heart shapes from Contact Paper.
- 3** Adhere Yappy and various heart shapes to outside of jar in a random pattern. Following directions on Armour Etch product, apply a thick coating of Armour Etch to the outside of the jar, covering all stamped/punched images.
- 4** Let jar sit as directed on Armour Etch and then wash product off of jar and remove Contact Paper images. Set aside.
- 5** Cut plain heart shape from white cardstock using Nestabilities die. Stamp Yappy in center of heart using Versafine ink. Trace outline of heart loosely using thin black pen. Stamp small 'asterisk' shape from Be Still, My Beating Heart around the outside edge of heart shape in black ink.
- 6** Watercolor images using Twinkling H2O watercolor paints.
- 7** Cut scalloped heart shape from light blue cardstock using Nestabilities die.
- 8** Adhere watercolored piece to scalloped heart shape.
- 9** On scrap of pink cardstock, stamp "I Ruff You" using black ink.
- 10** Hand cut curved center portion of banner around stamped sentiment. Hand cut pointed end pieces for the banner making sure that the height of these pieces is the same as that of the center piece.
- 11** Adhere these pieces to the top of the layered heart piece. Use pop-dots to make the center portion of the banner stand up above the side portions.
- 12** Fold red cardstock into small card shape and adhere layered heart to front of card leaving room at top for punched hole. Punch hole in top edge of folded card and insert ribbon.
- 13** Tie bow around ribbon with piece of silver cord. Add dot of Silver Stickles to center of each stamped 'asterisk' and let dry.
- 14** Use silver cord to tie tag to jar.
